

## 虛擬資產相關產品的風險披露聲明 Risk Disclosure Statements Regarding Virtual Asset-related Products

### 投資虛擬資產相關產品的風險 Risks of Trading Virtual Asset-related Products

對虛擬資產相關產品進行任何交易前，客戶必須仔細考慮可否接受以下列出的風險以及所有其他適用的風險。

You must consider carefully whether the risks set out below, as well as all other applicable risks, are acceptable to the Customer prior to any transaction on virtual assets related products.

虛擬資產或虛擬資產相關產品對投資者造成重大風險，當中部份是因虛擬資產本身的固有性質與特點所致，而另一部份則源自虛擬資產交易平台或投資組合管理公司的營運。

Virtual assets or virtual asset-related products (“VA-related Products”) pose significant risks to investors. Some of these risks are inherent in the nature and characteristics of the virtual assets themselves and others stem from the operations of platforms or portfolio managers.

#### (a) 流通性、波動性及估值

虛擬資產一般欠缺實體資產支持或政府擔保，亦不具實際價值。一些虛擬資產可能不會自由或廣泛流通，也可能不會在任何二級市場上市。虛擬資產/虛擬資產相關產品亦可缺少二級市場給投資者交易。某些虛擬資產類別並沒有普遍接納的估值原則。

虛擬資產或虛擬資產相關產品的價值可能會在短時間內大幅波動。這意味著虛擬資產或虛擬資產相關產品的價格可能會上漲或下跌，並可能變得毫無價值。投資者將損失部分或全部資金。任何虛擬資產都可能因各種因素而貶值或失去其全部價值，包括發現不當行為、市場操縱、虛擬資產性質或屬性的變化、政府或監管活動、法律變更、暫停或停止支持對於虛擬資產/虛擬資產相關產品或其他交易所或服務提供商、公眾意見或我們無法控制的其他因素。

二級市場上的價格會因供求而受到影響，及具有短暫和波動的性質。如果虛擬資產的資金池規模細而零散，投資者所面對的波動性便可能進一步擴大。

#### (a) Liquidity, Volatility and Valuation

Virtual assets are generally not backed by any physical assets or guaranteed by the government. They have no intrinsic value. Some of the virtual assets may not circulate freely or widely, and may not be listed on any secondary markets. There may be lack of secondary markets for investors to trade virtual assets or VA-related Products. There may not have any generally accepted valuation principles governing certain types of virtual assets.

The value of the virtual assets or VA-related Products may fluctuate significantly over a short period of time. This means there is a high risk that the price of virtual assets or VA-related Products may move up or down, and may become valueless. Investor will lose some or all of your money. Any virtual asset may decrease in value or lose all of its value due to various factors including discovery of wrongful conduct, market manipulation, change to the nature or properties of the virtual asset, governmental or regulatory activity, legislative amendment, suspension or cessation of support for a virtual assets/ VA-related Products or other exchanges or service providers, public opinions, or other factors outside of our control.

Prices on the secondary market are driven by supply and demand and are short-term and volatile by nature. The volatility faced by investors may be further magnified where liquidity pools for virtual assets are small and fragmented.

#### (b) 網絡保安及穩妥保管資產

交易平台營運者及投資組合管理公司可能將客戶資產存放在線上錢包內(即存於有互聯網介面的網上環境)，而線上錢包容易受黑客入侵。網絡攻擊導致黑客入侵虛擬資產交易平台及虛擬資產遭盜取的情況普遍。受害人可能難以向黑客或交易平台追討損失，其金額可高達數億港元。鑑於可供選擇的合資格保管人有限，虛擬資產基金面對獨有的挑戰；而可供選擇的解決方案亦可能並非完全有效。

涉及虛擬資產的交易是不可撤銷的。丢失或被盜的虛擬資產可能無法找回。一旦交易經過驗證並記錄在區塊鏈上，虛擬資產的丢失或被盜通常將不可逆轉。

#### (b) Cybersecurity and Safe Custody of Assets

Trading platform operators and portfolio managers may store clients' assets in hot wallets (ie, online environments which provide an interface with the internet). These can be prone to hacking. Cyber-attacks resulting in the hacking of virtual asset trading platforms and thefts of virtual assets are common. Victims may have difficulty recovering losses from hackers or trading platforms, which can run to hundreds of millions of Hong Kong dollars. Virtual asset funds face a unique challenge due to the limited availability of qualified custodian. Available solutions may not be totally effective.

Transactions involving virtual assets are irrevocable. Lost or stolen virtual assets may be irretrievable. Once a transaction has been verified and recorded on a blockchain, loss or stolen virtual assets generally will not be reversible.

(c) 市場廉潔穩健

與受規管的股票交易所不同，虛擬資產的市場仍處於萌芽階段，及可能不在一套受認可及具透明度的規則下運作。運作中斷、市場操縱及違規活動時有發生，而這些情況均會造成投資者損失。

(c) Market Integrity

Unlike regulated stock exchanges, the market for virtual assets is nascent and may not operate under a set of recognised and transparent rules. Outages are not uncommon, as are market manipulative and abusive activities, and these all result in investor losses.

(d) 利益衝突

虛擬資產交易平台營運者可能同時擔當客戶的代理人及主人。虛擬資產交易平台像傳統交易所、另類交易系統或證券經紀商那樣，可利便虛擬資產的首次分銷（如首次代幣發行）及／或二級市場交易。若這些營運者不在任何監管機構的監察範圍內，利益衝突便難以被偵測、監察及管理及在交易、借貸或其他交易平台上存在價格操縱風險。

(d) Conflicts of Interest

Virtual asset trading platform operators may act as agents for clients as well as principals. Virtual asset trading platforms may facilitate the initial distribution of virtual assets (e.g., initial coin offerings), facilitate secondary market trading, or both, as in a traditional exchange, alternative trading system or securities broker. If these operators are not under the purview of any regulator, it would be difficult to detect, monitor and manage conflicts of interest and has a risk of price manipulation on trading, lending or other dealing platforms.

(e) 監管不充分和不一致

虛擬資產/虛擬資產相關產品可能不受監管金融產品相關的法規的約束，包括但不限於發牌要求、審計、交易報告要求、反洗錢規則、市場操縱規則、市場誠信原則。因此，虛擬資產/虛擬資產相關產品市場特別容易受到操縱和欺詐的影響，這可能對虛擬資產/虛擬資產相關產品的價格產

生負面影響。在會計的專業範疇內不一定有協訂標準與行業慣例，說明核數師應以何種方式進行保證/估值程序，從而就虛擬資產是否確實存在及其擁有權取得足夠的審計證據，及確定估值的合理性。

(e) Inadequate and Inconsistent Regulation

Virtual assets/ VA-related Products may not be subject to regulations associated with a regulated financial product, including, but not limit to, licensing requirement, audit, trade reporting requirements, anti-money laundering rules, market manipulation rules, market integrity principle. The markets for virtual assets/ VA-related Products are therefore especially susceptible to manipulation and fraud which can have a negative impact on the price of virtual assets/ VA-related products. Among the accounting profession body, there may not be an agreed standards and practices for auditor to perform assurance and valuation procedures to obtain sufficient audit evidence for the existence and ownership of virtual assets, and ascertain the reasonableness of the valuations.

(f) 欺詐

虛擬資產可能被用作為欺詐投資者的手段。虛擬資產交易平台營運者或投資組合管理公司在允許虛擬資產在其平台上買賣或為其投資組合投資虛擬資產之前，可能未進行足夠的產品盡職審查。結果，投資者可能成為欺詐的受害者並損失其投資。

(f) Fraud

Virtual assets may be used as a means to defraud investors. Virtual asset trading platform operators or portfolio managers may not have conducted sufficient product due diligence before allowing virtual assets to be traded on their platforms or investing in a virtual asset for their portfolios. As a result, investors may become victims of fraud and lose their investments.

(g) 缺乏對虛擬資產/ 虛擬資產相關產品的健全規則和保護

不僅虛擬資產本身，虛擬資產的交易、借貸、交易平台和託管人在某些國家可能不受監管。政府或監管機構可能不會提供任何保證和保障。投資新型虛擬資產或投資新市場參與者的複雜交易策略產品可能會產生新的不可預見風險。

此外，虛擬資產/虛擬資產相關產品可能缺乏健全的監管體系。由於虛擬資產/虛擬資產相關產品的不斷演變和發展，全球監管機構在為虛擬資產/虛擬資產相關產品建立健全監管體系方面可能

面臨重大困難。

(g) Absence of Robust Regulations and Protection on Virtual Assets/ VA-related Products

Not only virtual assets itself, trading, lending, dealing platforms and custodians of virtual assets may be unregulated in some countries. There may not have any guarantees and safeguards provided by Government or regulatory bodies. New unforeseen risks may arise from investing in new types of virtual assets or investing in new market participants' complex transaction strategies products.

Moreover, there may be an absence of a robust regulatory system for virtual assets/ VA-related Products. Global regulatory bodies may face difficulties on developing a robust regulatory system for virtual assets/ VA-related Products due to the continuing evolution and development of virtual assets/ VA-related Products.

(h) 虛擬資產/虛擬資產相關產品含違約風險和/或對手風險

違約風險能來自發行人未能按約定付款。在市場低迷時期，發行人能因無法履行承諾而違約。

對手風險是指交易方未能履行其金融合同義務。

(h) Virtual Assets/ VA-related Products Contain Default Risks and/or Counterparty Risks.

Default risk could come from the issuer's failure to make payments as agreed. At time of market downturn, an issuer may default due to their inability to fulfil their commitments.

Counterparty risk refers to the failure of the trading party in fulfilling their financial contractual obligations.

### **投資虛擬資產期貨合約的額外風險**

虛擬資產期貨合約下的虛擬資產價格可能極為波動，這可能由於流動性不足引起。由於相關虛擬資產難以估值，因此為投資者在對虛擬資產期貨合約進行可靠估值方面帶來重大挑戰。

期貨合約的高度槓桿化性質亦令投資者所面對的風險倍增。此外，虛擬資產或虛擬資產期貨合約的複雜性和固有風險可能會令一般投資者難以明白和理解。

不時有報道指出，銷售或買賣虛擬資產期貨合約的平台涉及操縱市場和違規活動。虛擬資產交易平台的交易規則可能並不清晰及公平。部分平台曾經被投資者批評，指其在期貨合約的生命周期內改變交易規則，例如中止買賣或取消交易，導致投資者蒙受重大損失。

由於虛擬資產相關產品是一種相對較新的資產類別，可能存在尚未識別的額外風險。由於波動性和未知的風險性質，只有在客戶準備接受損失其投資於虛擬資產相關產品的所有資金的風險時，客戶才應投資於虛擬資產相關產品。

### **Additional Risks of Entering Into Virtual Asset Futures Contracts**

The prices of the virtual assets which underlie these futures contracts fluctuate, sometimes dramatically. This may be due to insufficient liquidity. The difficulty in valuing the underlying virtual assets will in turn pose significant challenges for investors in reliably valuing virtual asset futures contracts.

Investors are exposed to amplified risks due to the highly leveraged nature of futures contracts. Moreover, the complexities and inherent risks of virtual assets and/or virtual asset futures contracts are likely to be difficult for the average investor to understand. From time to time, there have been reports of market manipulative and abusive activities on platforms offering or trading virtual asset futures contracts. Such platforms may not have clear and fair trading rules.

Some platforms have been criticised by investors for changing their trading rules during the life of futures contracts, for instance, halting trades or rolling back transactions and causing significant losses to investors.

As VA-related Product is a relatively new class of asset, there may be additional risk which have not been identified and mentioned. Due to volatility and unknown risk nature, the Customer should only invest in VA-related Products if the Customer are prepared to accept the risk of losing all the monies they have invested in VA-related Products.
